Converters

Converter allows change of current direct/alternate or voltage 12/24V.

Characteristic:

- enable change of current/voltage
- converter DC/AC improves preload force parameter for electric strikes powered by direct current

Available models:

- CON.12 converts 24V DC into 12V DC
- CON.24 converts 12V DC into 24V DC
- CON.AC converts direct current (DC) into alterneting current (AC)

Product available only on order.
